The Florida Music Education Association (FMEA) is authorized to coordinate student auditions for the purpose of establishing the All-State Bands, Choruses, and Orchestras.
- 1.2 All rules and regulations of approved music associations as they now exist shall be the operating regulations of these component associations, provided that these do not conflict with the Bylaws and Rules and Regulations of the FSMA. This does not preclude changes as conditions may require.
- 1.3 An instructor who is an employee of a school that is a member of the FSMA may not be required to hold membership in any professional organization as a prerequisite for participation of a student from an FSMA-member school in any interscholastic music performance assessment. However, FSMA recommends that instructors support their professional association through membership.
- 1.4 All employees of school systems who are engaged in organizing and/or executing music performance assessments or All-State auditions shall, for the purpose of these regulations, be considered as representatives of their respective schools, as well as directors or agents of the music association sponsoring the sanctioned activity.
- 1.5 Sanctioned activities shall be conducted by the music personnel of the member schools under these regulations and regulations of the particular association concerned, and under the direct supervision of the principal of the host schools in which district music performance assessments are held. All officers shall be held accountable for the enforcement of all regulations in all district music performance assessments.
- 1.6 State music performance assessments shall be under the supervision of the FSMA Executive Director and the respective presidents and/or executive directors of the associations sponsoring the music performance assessments.
- 1.7 District music performance assessments should be scheduled so that no participating students will miss more than two days of regular class work and consideration is given to participating schools' travel times/distance.
- 1.8 All schools shall participate in music performance assessments in their own districts or divisions of the state (as defined by FBA, FOA and FVA) except by special permission through the component associations' waiver process. - 1.12 Any protest arising from a music performance assessment, with the exception of adjudicator assigned ratings, must be filed with the appropriate association within 48 hours of the event. Any appeal of the association's decision must be filed with the FSMA Executive Director within 48 hours of notification of the association's decision for the protest to be heard by the FSMA Appeals Committee. Any hearing by the FSMA Appeals Committee will be for the purpose of verifying that procedures and policies of the component association were followed.
- 1.13 Adjudicator ratings may not be appealed.
- 1.14 Sites selected for Music Performance Assessments must be compliant with the Americans with Disabilities Act (ADA). Note from the Board of Directors on 2.6, student eligibility:

March 4, 2019

Music Performance Assessments (MPAs) are not exclusively extracurricular activities, but rather, they are co-curricular, meaning students who are enrolled in music classes have work that extends beyond the school day for regular rehearsals and performances.

Music courses are part of a well-rounded education as defined by the Every Student Succeeds Act (ESSA). As such, music courses are credit-bearing and aligned to standards created and approved by the Florida Department of Education.

The Florida School Music Association (FSMA) designed the Music Performance Assessments to assess knowledge and skills related to the approved standards for secondary music ensembles including Band, Chorus, and Orchestra. Therefore, students' academic eligibility requirements in other academic courses are not a prerequisite for participation in Music Performance Assessments.
